

Week 1

AWS Cloud Internship

Release Date: 10 August 2026

This week, you'll learn **Cloud Computing, AWS Introduction, Account Setup & IAM Security**. These concepts form the foundation of AWS and help you build secure, scalable, and reliable cloud environments.

Topic:- Cloud Computing, AWS Introduction, Account Setup & IAM Security

This week, you are expected to learn:

- Introduction to Cloud Computing
- Benefits of Cloud Computing
- Types of Cloud (Public, Private & Hybrid)
- Cloud Service Models (IaaS, PaaS & SaaS)
- Introduction to AWS
- AWS Global Infrastructure (Regions & Availability Zones)
- AWS Free Tier
- AWS Management Console
- AWS Billing Dashboard
- IAM (Identity & Access Management)
- IAM Users, Groups & Roles
- IAM Policies
- Multi-Factor Authentication (MFA)
- AWS Shared Responsibility Model

*Learning Approach

Focus on understanding the core concepts of Cloud Computing and AWS security before performing practical tasks. Explore the AWS Console, practice IAM configurations, and understand why security is the foundation of every AWS environment.

Keep these points in mind:

- ✓ Understand the difference between Cloud deployment and service models.
- ✓ Explore the AWS Management Console confidently.
- ✓ Practice creating IAM Users, Groups, Roles, and Policies.
- ✓ Enable MFA and follow AWS security best practices.
- ✓ Verify AI-generated explanations using your AWS account and official AWS documentation.

***Complete the following practical exercises:**

- Create an AWS Free Tier account.
- Enable Multi-Factor Authentication (MFA).
- Explore the AWS Management Console.
- Create an IAM User and IAM Group.
- Attach an appropriate IAM Policy.
- Create an IAM Role and understand its use case.
- Explore the AWS Billing Dashboard.
- Learn about AWS Global Infrastructure.
- Prepare a short PDF explaining:
 - Cloud Computing
 - Cloud Service Models
 - Deployment Models
 - AWS Global Infrastructure
 - IAM
 - IAM Users, Groups & Roles
 - IAM Policies
 - Shared Responsibility Model

Task Submission

Once you complete the above task, submit:

- ✓ PDF Report
- ✓ Screenshot of AWS Account
- ✓ Screenshot of MFA Enabled
- ✓ Screenshot of IAM User & Group
- ✓ Screenshot of IAM Role
- ✓ Screenshot of Billing Dashboard

Task Submission Deadline: Wednesday (EOD)

Hands-on Activity

Scenario

Imagine you have joined a company as a **Cloud Engineer**. Your first responsibility is to set up a secure AWS account for a new employee by following AWS security best practices.

*Complete the following:

- Secure the AWS account with MFA.
- Create an IAM Group for Developers.
- Create an IAM User and assign it to the group.
- Attach the required IAM permissions.
- Create an IAM Role for AWS services.
- Review the Billing Dashboard.
- Document each configuration step.

Activity Submission

After completing the hands-on activity, submit:

- ✓ Screenshots of IAM Configuration
- ✓ Screenshot of MFA Enabled
- ✓ Screenshot of IAM Policies
- ✓ Screenshot of Billing Dashboard
- ✓ Short implementation summary

Activity Submission Deadline: Friday (EOD)

AI Assistant Task

Use an AI Assistant such as **ChatGPT, Amazon Q, GitHub Copilot, Gemini, Claude, or Microsoft Copilot** to strengthen your understanding of AWS fundamentals.

***Complete the following:**

- Ask AI to explain Cloud Computing in simple terms.
- Ask AI to explain the AWS Shared Responsibility Model.
- Generate a comparison of IaaS, PaaS, and SaaS.
- Ask AI to explain IAM Users, Groups, Roles, and Policies with examples.
- Verify the AI explanations using your AWS account and AWS documentation.

AWS Pro Tip

Always use IAM Users instead of the AWS Root Account for daily activities, and enable MFA to keep your AWS environment secure from the very beginning.

Take time to understand the fundamentals of Cloud Computing and AWS IAM rather than simply creating resources. A strong understanding of AWS security and account management will help you build secure and reliable cloud environments throughout your Cloud journey.

If you face any genuine issues, feel free to reach out before the submission deadline.
